

- Decorated Military Veteran
- Financial Services Manager
- School Board President
- Contractors State License Board

## Paul Green for School Board (Area 3)

### CAMPAIGN PLATFORM

- If elected, I will work extremely hard to ensure that each District student has an equal opportunity to seek a quality education to the best of his or her ability.*
- My primary goal will be to improve student achievement and graduation rates for all students through staff empowerment and by engendering parental involvement and commitment.*
- I will seek to bring about a change in attitude toward career education that will result in increased opportunities for students who do not desire to seek a path that leads to college.*
  - I will be a good steward of public money.*
- I will seek fair and equitable treatment for all regardless of their status – especially parents or legal guardians for whom English is a second language.*
- I will be directly accountable to the public and not routinely delegate a surrogate to defend my positions.*
- I will make a special effort to always be aware of how my votes affect those whose voices are least able to be heard.*
- I will take into account the need to not "mortgage our student's future by voting to spend money today that will negatively impact known out year expenditure needs.*
- I will work cooperatively with other Board members, staff and stakeholders and regularly visit throughout the District.*
- As your representative, I will solicit input relative to the vote to be taken prior to deciding how I will vote based upon information and testimony provided. However, as your representative, I will not forsake my responsibility to make such votes in your stead based on your previously expressed expectations.*
  - I will seek to have a transparent-to-the-public process developed that will show the information received upon which a decision was based.*
- I support Measure "B" and agree that there is a need to regain the public's trust and to change "how business is done."*
